But Mr. Dolph was determined to be heard, and it is said he made of effort to secure a place for consideration of his report on the programme of outsiness adopted by the Recubilean steering committee but failed, although he was dimenself a member of the committee. This discription, however, upon an assurance last the matter could be disposed of in a (By telegraph to the Dispatch.) atternoon, however, upon an assurance that the matter could be disposed of in a few hours, he succeeded in securing a majority of the senators to consider it. The report was discussed nearly four hours, and at the close the recommendations of the committee were rejected by a vote of 55 to 23. This, it is supposed, ends the latest farce in connection with the executive sessions of the Senate.

Washinoron, April 18.—The Pan-American Conference did not conclude its business to-day, and the time for the starting of the excursion through the South has been changed to to-morrow night. The special train is in readiness and waiting in the Pennsylvania road station to start as soon as its passengers appear.

The conference will meet to-morrow at 11 o'clock to sign the minutes of to-day's closing session. Secretary Blaine will then deliver the closing address, and the delegates at 12 M. will call upon President Harrison at the White House. Returning to to their hall, the conference will be formally declared adjourned.

Late to-night Secretary Blaine decided that the journey through the South shall begin Saturday night at 11 o'clock.

Washinoron, April 18.—The Senate Republican committee held a meeting this morning, at which Secretary Windom was present and expressed his views. One is by the bullion redemption plan proposed in the bill, and the other is by surposed in the bill, and the other is by an thorizing a sale of bonds to provide a gold reserve when it becomes necessary to redeem them. The latter policy he believed to be wholly unnecessary and unjustifiable, and hence that there is no other means of protection than the buillon redemption proposition. He said he deemed this feature absolutely essential in protecting the credit of the country, and that he would feel it his duty to oppose any measure that gave the holder of a certificate an option on the currency in which it should be redeemed.

LONG TO THE ACTOR! Strange Story from Detroit Which Edwin Booth Refuses to Hear, and It is Hardly Probable.

[Special telegram to the Dispatch.] DETROIT, Mick., April 18.—An echo of the shot fired by J. Wilkes Booth in Ford's Theatre, Washington, twenty-five years ago last Monday, by which Abraham Lincoln received his mortal wound, was heard in Detroit. Thomas Casey, a typical Irishmen of sixty years or more, stood in front on the currency in which it should be redeemed.

After the Secretary had given his views upon the bill and the basis for them a discussion, rather desultory in its nature, took place upon the subject of the sufficiency of the circulation. Secretary Windom had stated to the committee that the fotal circulation was \$1,428,000,000, an average of \$21.70 per capita on the basis of 65,000,000 population. Actually, however, this sum was subject to diminution by amounts that are tied up in various ways, held for redemption of notes, &c. so that the per capita amount of circulation was considerably less than \$21.70. The Secretary agreed with the Senators as he had with the Representatives that an addition to the circulation was necessary, but in the conference to-day no definite sum was named by any one.

Another meeting of the committee will probably be held to-morrow in order to arrive at an agreement upon the basis for a silver bill. Some of the committee were in Detroit. Thomas Casey, a typical rise men of sixty years or more, stood in front of the Opera-House yesterday afternoon intently studying the show-bill that bore the name of Edwin Booth, who is playing an engagement here. He asked a man standing near him if Edwin Booth was any relation to J. Wilkes Booth. Being assured that he was, Mr. Casey repaired to the hotel to tell Mr. Booth the following remarkable story, now repeated for the first time:

In June, 1865, while Mr. Casey was an auctioneer in Quebec, a schooner called the Emma loaded at Montreal with oil for Nassau. In the cargo were seven large trunks marked "J. W. B., Nassau, to be called for." The schooner passed Quebec, but a short distance below that city a storm struck her and she was wrecked. The crew and officers were never seen, but the dereliet was picked up by some Quebec sailors, who claimed salvage. The goods recovered were put into the Admiralty Courtto be sold, and Thomas Casey was the auctioneer to whom the sale was intrusted.

To BOOTH'S CREDIT.

The sailors realized \$300, and \$300 was deposited to the credit of J. Wilkes Booth or his heirs. Mr. Casey had never heard of J. Wilkes Booth. Away down in Quebec, he took but little interest in the affairs that were then interesting the American mind, and he made no effort to find the owner, who he then supposed was drowned on the Emma, nor had he any interest in inquiring for Booth's relatives. In the lapse of time the affair escaped his memory, and he did not think of it again until to-day. Guana and the navigation of Orinoco river. As the discussion progressed a difference was developed which bid fair to block the way to a conclusion tuless much time should be consumed and unless some concessions should be made. Casey's endeavor to see Edwin Booth was futile. He was not in his room, and no reply was degned to a note in which the writer intimated that he might be able to impart some information of interest about J. Wikes Booth. A subsequent interview with Mr. Arthur Chase, Mr. Booth's manager, was equally fruitless, Mr. Chase interview with Mr. Arthur Chase, the the great tracedian ger, was equally fruitless, Mr. Chase in-ferming Casey that the great tragedian would tolerate no allusions to or conversa-tions about his brother from any source whatever.

(Special telegram to the Dispatch.)

Warsaw, Va., April 18.—A very lively and exciting scene was enacted on board the steamer Essex, which plies between the cities of Fredericksburg and Baltimore, to-day whilst that steamer was lying at Ware's wharf, in Essex county. Three young negro men named Holmes had come on the boat at Tappahannock, and upon being requested by the clerk to pay their fare demanded state-rooms, saying if they did not get them they would pay no fare to the city of Baltimore, whither they were bound. The clerk informed them that all the rooms had been engaged and insisted upon being paid the regular fare, which the three brothers all refused to do. The other two negroes then joined in, but the Captain and his officers proved too much for them, and they were soon overcome. The Captain, who had acted with great coolness and forbearance, then drew his pistol, and again ordered the men to pay their fare or leave the boat. Seeing that turther resistance was useless the negroes then paid. When the steamer reached Sharp's Wharf, on the Richmond-county side of the river, the Captain telephoned to Warsaw for the sheriff of the county, but before that officer could reach there the men left the boat and took to the woods. A warrant for their arrest was sworn out, but at last accounts they had not been found. thus ended. Dr. Markinez Silva, of Columbia, had, however, a proposition to present. John Downey, chief of the Federation of Railway Employes, arrived from Chicago this morning, and is now holding a conference with the men. He has refused to act until after he has seen the men and officials, when he will announce his decision. A new feature of the situation is the probability of a strike of street-railway employes at the same time. In the autumn of 1891 an important meeting of geologists from all points of the world will be held in this county. It will be known as the International Geological Congress and will be the fifth meeting of the kind ever held. A committee was appointed some time ago to make arrangements for this meeting, and as many of the members of the committee are also members of the committee are also members of the National Academy of Sciences advantage was taken of their presence in this city to hold a meeting.

The committee met this afternoon at the National Museum. Professor Newbury, of New York, is the chairman, and the other members present were as follows: Professor J. P. Lesley, Professor E. D. Cope, and Professor Frazer and Dr. Joseph Leidy, of Philadelphia; Professor J. J. Stevenson, of New York; Major J. W. Powell, Professor G. K. Gilbert, Professor Anold Hague, and Professor C. D. DRESSING THE HAIR.

An entirely new style of hair-dressing is threatened. In Paris the frizzy bang has meekly subsided to give the Javanoise head-dresses a chance. Fashion appears to have gone daft on those peculiar ornaments, and the great jewellers of the Rue de la Paix have been or dered to reset the diamonds of more than one grand dame after the pattern of those flat metal ornaments. At the opera a few weeks ago a dazzling Keht in Parasian society appeared with her hair dressed perfectly flat to her head on one side right above the ear, an ornament as large and as flat as an individual butter-plate, composed of diamonds and pearls and medallions as large as an English penny of the same gems going round to the other ear across the forehead just at the line of the hair. How those gorgeouts jewels were kept in place was secret known only to madame's coffeur gorgeous jewels were kept in place was a secret known only to madame's coiffeur and jeweller, but it was "Javanouse," and, therefore, a beautiful and distinguished innovation on the diamond star and butterfly ornamentations. Such is one of the results of the Paris Exhibition, where the fashions of Java dancers were first introduced to western imitators.

Again the Deadly Cigarette.

Again the Deadly Cigarette.

Samuel Kimball, a sixteen-year-old member of the choir of St. Mary's church, Brooklyn, died on Friday last at St. John's Hospital from what appeared to be cigarette-porson. The boy was a constant smoker, and when brought to the hospital from his heme was suffering from a dropsical condition of the legs and weak condition of the heart. The hospital doctors said that his system had been so thoroughly impregnated with nicotine that the heart was mable to perform its proper impregnated with nicotine that the The Postal-Card Troubles Arranged.

The Postal-Card Troubles Arranged.
New Haven, Conn., April 18.—The postalcard troubles at the works were satisfactorily arranged late this afternoon. Several
carties who went there to place additional
ttachments refrained from doing so and
the attachment of F. C. Cannon has been
withdrawn. George E. Lemon, the Washngton capitalist, has, it is said, come to
baggert's relief, and the creditors have
seen induced to allow him to go on.
